Click on "View Code".

Create a carrom board game where you have a disk that you control using the arrow keys.

You have learnt to use the arrow keys in your Class 2.

Create multiple other disks that are lighter/smaller.

COLLIDE all such disks outside the carrom board corners to win the game.

For inspiration you can check out this youtube video of a carrom board game:

Click the "SHARE" button to generate a shareable link.

Copy the link and submit it to the Student Project Panel.

We expect you to bring your own creativity into the game. Write to us if you have any questions. Can't wait to play your games!!

REMEMBER... Try your best, that's more important than being correct.

After submitting your project your teacher will send you feedback on your work.

DID YOU KNOW?

HP, Microsoft and Apple have one very interesting thing in common – they were all started in a garage.
